Role of Korean/ Korean-American scientists/engineers and their contribution to global society

When: May 22 (Tuesday)

4:00-6:00PM

Where: CE Bldg Room 110

KSEA SW State Chapter and KSEA at Texas A&M present a special seminar!

Dr. Seo Jung-Uck, a former minister of Science and Technology and a former Aggie, is invited to the seminar as a distinguished speaker. This event will provide young students and researchers with an opportunity to interact with top-notch engineers / scientists and learn priceless lessons from their knowledge and experiences. Through the seminar, it is expected for young students and researchers to broaden their perspectives and prepare themselves to cope with real world. Come and grab a chance to communicate with one of the most respected figures in science and engineering fields and get to know the KSEA. You are all invited to the Seminar!

Don't miss the chance...No registration required!
